Benefits of Membership

The opportunity to attend seminars that are specific to NVC and EMG. Share information with colleagues and find out things that they are doing. See the newest equipment in electrodiagnosis. Being part of an organization is big with insurance carriers and referring providers to know you have standards.

President’s Message from the American College of Clinical Electrodiagnosis!

Greetings from the American College of Clinical Electrodiagnosis! We are thrilled to share the news of our inaugural edition of the ACCE EDX Newsletter! The ACCE EDX Board eagerly anticipates that this newsletter will keep you informed about upcoming ACCE symposiums, the political landscape surrounding EMG/NCV and chiropractic on both state and national levels, EDX clinical insights, the latest in electrodiagnostic research, and a member classified section featuring job opportunities and equipment for sale coming soon.

Our 2023 American College of Clinical Electrodiagnosis, held at Palmer College of Chiropractic in Port Orange, Florida, was a resounding success! We featured an outstanding lineup of speakers, including Jeff Strakowski, MD; Mary Miller, R.NCS.T; Luis Vera, DC; and Troy Hale,

What would you like to see in the newsletter or the symposium?

.....
We try to bring in speakers that can provide benefit to many doctors across all the states. In NY we can not bill for ultrasound but at the symposium we had an excellent lecture on it. It was nice for me to see what is new and up coming and found out one of my MDs is doing it and created a conversation.

Email us to let us know if there is a topic or someone you would like to see lecture at the seminars.

Email Dr. George Resnick

POWER OF NUMBERS

The more members we have the more power we have with the ACA to fight for expanded scopes and stop the attack on chiropractors doing electrodiagnostic medicine.

Aud, FAAA. A special thank you to our sponsors: Cadwell Laboratories, Natus Neurology, NCMIC, and Secure Health, Inc. (VNG Technology). With 19 hours of advanced EMG/NCV courses accredited through the National University of Health Sciences, it was a truly enriching experience.

Looking ahead to 2024, the American College of Clinical Electrodiagnosis has set ambitious goals:

- Increase outreach to expand our membership base, aiming for 50 active members to petition for council status with the American Chiropractic Association.
- Promote and implement our American College of Clinical Electrodiagnosis Symposium, scheduled for October 4-6th, 2024 at the Rosen Plaza Hotel in Orlando, Florida.
- Publish a bi-monthly ACCE EDX Newsletter.
- Create and implement an educational arm of the ACCE to provide the education requirements to be able to sit for the ABCE diplomate examination when it is available.

We express our sincere thanks to our members for their ongoing support and dedication to being the best in electrodiagnosis in the chiropractic profession. If you are not yet a member and would like to join, please visit our website at www.accedx.org. To apply for membership, you must be an active ACA Member and a Member of the ACA Council on Rehab.

Professionally yours,

Dr. Anthony Inglese, DC, FIACN, DIBCN, DIBE, DABCE
President, American College of Clinical Electrodiagnosis

Thank You Mike!!!

Heartfelt gratitude goes to Dr. Michael Siefman of Naples, Florida, the co-founder and first president of the American College of Clinical Electrodiagnosis. Dr. Siefman's dedication to advancing electrodiagnosis and chiropractic neurology has been pivotal in establishing organizations, promoting education, and ensuring the proficiency of providers. His generous donation of \$5,000 to the American Board of Clinical Electrodiagnosis will support the development of a psychometrically valid examination with the National Board of Chiropractic Examiners (NBCE). We extend our deepest thanks to Dr. Siefman for his unwavering commitment to education and professional development.

As the American College of Clinical Electrodiagnosis undergoes some changes, we want to introduce you to our esteemed board members:

- President: Dr. Anthony Inglese
- Immediate Past President: Dr. Luis Vera
- Vice President: Dr. Jerrold Simon
- Secretary: Dr. George Resnick
- Treasurer: Dr. Marco Lopez
- Board Member/Editor of ACCE Newsletter: Dr. Anthony Garmone

The American Board of Clinical Electrodiagnosis (The Examining Board) has also experienced some changes:

- President: Dr. Luis Vera
- Vice President: Dr. Ralph Mangels
- Secretary: Dr. Christos Vasakiris
- Treasurer: Dr. Ronald Brodtkin
- Board Member: Dr. Anthony Palumbo
